

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY AUGUST 7, 2003 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was heavy in the Northwest and Northern Rockies Areas, moderate in the Eastern Great Basin Area, and light elsewhere. Nationally, 370 new fires were reported. Five new large fires were reported, one each in the Eastern Great Basin, Northwest, Rocky Mountain, Northern California and Southwest Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage the Wedge Canyon, Robert, Trapper Creek Complex, Little Salmon Creek Complex (WFU) and Ross Creek fires on the Flathead and Kootenai National Forests, and the Glacier National Park.

WEDGE CANYON, Flathead National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This fire is in sub-alpine fir with down fuels, 20 miles east of Eureka, MT. Minimal fire behavior with isolated torching was observed. Crews are constructing direct handline in the Antley Creek drainage. Crews are conducting burn out operations on the northwest flank to reinforce containment lines. Structure protection is in place for 50 residences.

ROBERT, Flathead National Forest. A unified command between a Type 1 Incident Management Team (Ferguson) and Flathead County is in place. This fire is in timber, 8 miles north of Columbia Falls, MT. Isolated torching was observed on the north side. Rehabilitation activities have begun south of the Middle Fork of the Flathead River. Crews are making slow progress containing the west and northeast flanks due to difficult terrain and fuel conditions. Structure protection is in place for six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Raley) is assigned. This complex, comprised of Trapper Creek, Wolf Gun and Paul Bunyan fires, is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Both the Trapper Creek and the Wolf Gun fires are burning through old burns. Slow burning surface fire was observed. The major road through Glacier National Park (Going to the Sun Highway from West Glacier Gate to Logan Pass) will be opened on a controlled basis between the hours of 1000 and 1800. Smoke continues to impact Glacier National Park, Waterton Lakes National Park, and Lethbridge, Alberta, Canada. Structure protection is in place for three commercial properties.

SLIMS, Nez Perce National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This fire is in ponderosa pine and mixed conifer, 35 miles east of Grangeville, ID. Minimal fire behavior due to rain was observed. Crews have begun constructing indirect fireline from the wilderness boundary working west along Copper Ridge toward Meadow Creek.

BLACK FROG COMPLEX, Bitterroot National Forest. Plans are being made for a transfer of command from Frye's Type 1 Incident Management Team to Type 3 organizations on both the Blackwall and Frog Pond fires. This complex, comprised of the Blackwall and Frog Pond fires, is in lodgepole pine and mixed conifer with dead and down fuels, 34 miles south of Hamilton, MT. No new information was received.

BIG CREEK, Bitterroot National Forest. This fire is in timber, four miles northwest of Victor, MT. Minimal fire behavior with occasional torching was observed.

EASTERN GREAT BASIN AREA LARGE FIRES:

DEEP, Upper Snake River District, Eastern Idaho Area, Bureau of Land Management. A Type 2 Incident Management Team (Van Bruggen) has been ordered. This fire is in short grass, sagebrush and pockets of timber, 17 miles northwest of Dubois, ID. This wind-driven fire developed into a plume-dominated fire for several hours. Erratic winds produced torching, spotting and fire whirls. The campgrounds in the Medicine Lodge Creek area have been evacuated. Roads into Medicine Lodge Creek and Middle Creek are closed. Structure protection is in place for six residences.

HOT CREEK, Boise National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will take place on 8/9 at 0600. This fire is in mixed conifer with heavy fuel loading, three miles west of Atlanta, ID. Minimal fire behavior with isolated torching was observed. Evacuations of isolated summer cabins and campers remain in effect. Structure protection is in place for 80 residences and ten commercial properties. The Middle Fork Boise River Road remains closed due to mudslides. James Creek Road is currently the only road access into Atlanta and is closed to all but essential fire traffic.

NORTH FORK LICK, Payette National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This fire is comprised of the Grimmet and North Fork Lick fires. These fires are in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. Fires are being managed in a confine/contain strategy. Minimal fire behavior was observed.

LOST PACKER COMPLEX, Salmon-Challis National Forest. This complex, comprised of the Waugh, Upper West Horse and Horse fires, is 36 miles northwest of Salmon, ID. Minimal fire activity with no new acreage growth was observed in sub-alpine fir, mixed conifer and grass. Fires are in monitor status.

NORTHWEST AREA LARGE FIRES:

FAWN PEAK COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Management Team (Lohrey) is assigned. This complex is comprised of the Fawn Peak, Sweetgrass and Farewell fires. The Farewell fire is in sub-alpine fir with heavy dead and down timber, 13 miles northwest of Winthrop, WA. Slow backing fire was observed. Initial attack action was taken on five new fire starts. Increase in acreage is due to more accurate mapping.

JUNIPER DUNES, Spokane District, Bureau of Land Management. This fire is in short grass, 14 miles northeast of Pasco, WA. Running grass fire with scattered torching of juniper was observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

ROCKY MOUNTAIN AREA LARGE FIRES:

LANE GULCH, Grand Junction Field Office, Bureau of Land Management. This fire is in pinyon pine and juniper, 12 miles north of Grand Junction, CO. Isolated torching was observed.

THOMPSON SPRINGS, White River Field Office, Bureau of Land Management. This fire is in juniper and pinyon pine, 15 miles east of Rangely, CO. Running, crowning, and spotting one quarter mile ahead of the front were observed.

BIG SPRING, Casper Field Office (East Zone), Bureau of Land Management. This fire is in ponderosa pine, pinyon pine and juniper, 20 miles southwest of Buffalo, WY. Slow burning surface fire was observed. Structure protection is in place for 6 residences.

NORTHERN CALIFORNIA AREA LARGE FIRES:

HOOVER, Santa Clara Unit, California Department of Forestry & Fire Protection. This fire is in Coe State Park, 15 miles east of Morgan Hill, CA. Creeping with individual torching was observed in grass, brush and oak woodland.

PARK, Butte Unit, California Department of Forestry & Fire Protection. This fire is in grass and oak woodland, three miles northeast of Chico, CA. Rapid rates of spread were observed.

OUTLOOK:

Fire Weather Watches: For strong winds, low relative humidity and very high fire danger in southern Nevada, northwest Nevada and northeast California.

Weather Discussion: A dry southwest flow prevails over much of the West. However, a disturbance will be moving across the Pacific Northwest. Limited moisture continues in New Mexico, Colorado and Wyoming.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
EASTERN GREAT BASIN AREA Breezy with isolated thunderstorms in central Idaho mountains and eastern Utah mountains. Otherwise, generally warming and drying.	Idaho, Bridger-Teton: 63 to 84 mountains, 80 to 90 valleys. Utah and Arizona Strip: 74 to 92 higher elevations, 92 to 103 valleys.	Idaho, Bridger-Teton: 13 to 23% mountains, 9 to 20% valleys. Utah, Arizona Strip: 18 to 30% mountains, 10 to 20% valleys.	Southwest 10 to 20 mph over Snake River Plain, and ridgelines. Upslope and variable 5 to 15 mph elsewhere.
NORTHERN CALIFORNIA AREA Areas of fog and low clouds along the coast. Otherwise mostly sunny, becoming locally partly cloudy over northern inland areas during the afternoon	Mid 60s to mid 70s near the coast and in the mountains. Mid 70s to upper 80s lower inland terrain	19 to 28% in the driest inland areas.	Increasing to mainly south/southwest to west 7 to 15 mph, with gusts 24 to 32 mph over exposed higher terrain and in northeast California.

<p>NORTHERN ROCKIES AREA Isolated to scattered mixed dry and wet thunderstorms over the Idaho panhandle and Montana west of the divide with isolated thunderstorms in western North Dakota. Partly cloudy elsewhere.</p>	<p>Idaho: 80s Montana west of the Divide: 80s Montana east of the Divide: 85 to 100 North Dakota: 80s to low 90s</p>	<p>Idaho: 15 to 25% Montana west of the Divide: 17 to 27% Montana east of the Divide: 11 to 18% North Dakota: 25 to 40%</p>	<p>Idaho: Valley/slope winds 5 to 15 mph. Montana west of the Divide: valley/slope winds 5 to 15 mph. Montana east of the Divide: southwest 10 to 20 mph. North Dakota: southeast 5 to 15 mph.</p>
<p>SOUTHWEST AREA Partly cloudy. Widely scattered thunderstorms, most numerous eastern Arizona / western New Mexico and northern New Mexico.</p>	<p>80s and 90s mountains, mid 90s to near 105 lower elevations.</p>	<p>15 to 20% western Arizona, 20 to 40% northern New Mexico and eastern Arizona, 15 to 20% parts of eastern and southern New Mexico, and western Texas</p>	<p>Variable to upslope 5 to 15 mph, except east to southeast 10 to 20 mph across southwest Texas and south to southeast 5 to 15 across northeast New Mexico.</p>
<p>SOUTHERN CALIFORNIA AREA Morning coastal fog. Otherwise sunny.</p>	<p>65 to 80 coastal areas. 75 to 90 mountains. 85 to 95 valleys. 90s upper desert. 95 to 10 low desert.</p>	<p>8 to 20% mountains and deserts. 15 to 30% valleys. 40 to 50% coast.</p>	<p>Southwest 10 to 20 mph.</p>
<p>WESTERN GREAT BASIN AREA Mostly sunny with a breezy to windy afternoon.</p>	<p>80s to 90s in the lower elevations, upper 60s to 70s in the upper elevations, 102 in the southern deserts</p>	<p>5 to 15%, except 15 to 30% in the Sierras</p>	<p>South to southwest 15 to 25 mph. Some areas gusting to 30 mph.</p>
